COMPANY PROFILE

Established in 2011, Avid Hire is a Western Australian owned and operated equipment hire company, providing light and heavy service and support vehicles to projects nationwide.

Our knowledgeable team incorporates over 50 years' experience in the mining and construction industry, with a sound understanding of industry regulations and expectations. We pair our fast moving and fit-for-purpose approach with ongoing support to ensure a consistent, high quality service. We are committed to overcoming challenges, providing the best equipment to keep your operation running smoothly, with no downtime or delays.

“Avid Hire is our go to for all long term vehicle and heavy machinery hire. Great pricing, prompt and efficient customer service with late model or new vehicles. Mark and his team exceed all expectations of service delivery. Cannot recommend Avid Hire enough.”

- **Rob Collins**, Managing Director, Tidal Solutions

CAPABILITIES

Our diverse fleet comprises industry leading equipment brands such as Isuzu, Toyota, Mitsubishi, UD and Hino and is continually being upgraded, enabling us to provide new or low usage equipment built to mine site specification, or purpose built to client requirements. We utilise the latest innovation and technology to deliver safety, financial, environmental and technological benefits to our clients. All of our equipment meets national safety requirements across the civil, mining and resources industries.

We use certified mechanics for all our vehicle maintenance, repairs and servicing. Whether it be remote or inhouse at our fully equip workshop located in Bibra Lake.

We have the ability to tailor our services and contract arrangements to suit your needs, with the capability to cross hire equipment and provide a 24 hour support line.

“The resources sector in WA can be very reactive at times and Avid Hire work very well with reacting when our Project teams are in need. Vehicles are always well presented with all required specifications and paperwork ready. All hired equipment is delivered swiftly and with rates always being competitive. Avid Hire ticks all the boxes for us. Highly Recommended.”

- **Glen Ercegovich**, Procurement Manager, Primero

HSEQ

HEALTH & SAFETY

Avid Hire is committed to safe operations. Our modern fleet of industry leading brands ensures our equipment is up to date with the latest innovation and safety features.

Our systematic style of fleet management ensures every vehicle is maintained in accordance with OEM specifications. All Avid Hire vehicle maintenance and service history is electronically recorded and readily available.

Our “safety first” company culture has achieved no workplace injuries or LTI’s to date since the inception of Avid Hire.

ENVIRONMENT

Avid Hire’s Environmental Management Plan is in line with environmental legislation. This also includes but not limited to; ongoing research regarding our fleet, the use of modern vehicles utilising the lowest emission technologies, the correct disposal of all waste items and recycling and reusing wherever possible.

QUALITY

Avid Hire’s quality control process includes complying to ISO 9001:2008 Australian Standard Regulations for quality control. These regulations are applicable to all operations and are used in conjunction to our risk management procedure.

RISK MANAGEMENT

Our risk management approach comprises continuous reinvestment in our hire fleet and assessment of fleet performance.

All fleet vehicles are inspected thoroughly on return, regarding service, maintenance, and condition prior to redeployment. Electronic condition reports are recorded as part of our fleet risk management.

INSURANCES

Avid Hire holds all necessary insurances, including Workcover, Public Liability Insurance, Management Liability Insurance and Vehicle and Equipment Insurance.
